

Submitter: David Wall
On Behalf Of: Mr Oregon Opposes HB 4029
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: HB4029

I OPPOSE [HB 4029].

[HB 4029] favors the solar power energy and thereby is discriminatory per se to certified Trade persons in roofing, electrical issues and Attorneys who could easily provide the legalities of conditions set forth in 'agreements' governed by contract law.

[HB 4029] needs to explain why Oregonian Trades people are "barred" from pursuing economic opportunities to install solar powered equipment.

***It is a sad note for Oregon, to support the putsch for solar and wind power is really governed by residential development which is destroying valuable, irreplaceable farmlands needed for agricultural.

David S. Wall

Mr. Oregon Concurr and says, "Agriculture, Forest products, Mining and Fisheries are Oregon's sustainable, renewable economies-residential housing projects add pollution and generalize destruction of the aforementioned sustainable, renewable economies."
