Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4088

I stand in opposition to this bill and request that you do as well.

This bill uses vague language that could prevent parents from protecting their own children when they cross state lines.

This bill could protect adults who help a child travel to another state without the parents' knowledge or permission, as long as they claim it was to get "gender-affirming care."

This bill would make it harder for parents to access their own child's medical records, even when they believe their child is being harmed.

This bill would block cooperation with investigations from other states and prevent children who were harmed by medical transition from being able to seek justice later.

In summary, HB 4088 puts ideology ahead of parents' rights, child safety, transparency, and sound medical practice.

Please vote against this abhorrent proposed legislation
