Measure, Appointment or Topic: HB4143

I support withholding state funds from the federal government if the federal government unlawfully withholds funds in violation of a court order. State funds should be withheld until those payments are restored from the federal government.

I also support the state providing indemnity to employees who are instrumental in withholding state funds to fulfill this law.

For a much more detailed letter, please read Senator Pham's testimony. I am in complete agreement.

It is extremely important for our state to not continue to pay into a federal system that uses politically strategic, unlawful means to control our state and inflict chaos and harm.

Thank you for supporting this legislation.
