

Submitter: Jeanne Raymond

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: SB1538

I agree that all students must be admitted to public schools regardless of immigration status and all other guaranteed Constitutional rights.

All students should be welcomed and able to get the opportunity to be educated.

Please support SB 1538. An education of all students without discrimination benefits not only the student, but also the entire community and state of Oregon.
