

Submitter: Teresa Roberts

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4088

I strongly oppose HB 4088 because;

1. There is no age limit mentioned. Parents should be allowed a say in their child's decisions. The state should not be able to hide any information from parents or legal guardians.
2. The government should not be involved in gender affirming care or reproductive rights and should not be able to control individuals' information.
3. With the rise in transgender violence, this bill could hide the original identity of the person who committed the crime. It's important to know all aspects of a person's mental health including the use of potentially mind altering hormones that can cause severe swings in mental capacity and decision making.
