Business, and Trade

Measure, Appointment or SB1548
Topic:

It's gross that so many anti-marijuana measures are even being considered to be brought up under the guise of being "for the children" when it has nothing to do with the children.

If it was truly about the packaging coloration you could simple make a bill about altering the packing coloration.

Also, current dosage limits are already draconic and hurt the Oregon consumer by artificially reducing the bulk discount rate that other associated delivery methods enjoy. Let companies make tinctures with 1,000's of MG per bottle. It allows more usage for sub-par or older product to still get a profit and maintain shelf stability. We don't let the danger of guns to children force us to individually wrap our bullets, or our aspirin.
