

Submitter: Michael Orr

On Behalf Of:

Committee: House Committee On Economic Development, Small
Business, and Trade

Measure, Appointment or Topic: SB1548

Beyond any economic or social impacts, this bill is idiotic on its surface. The same logic being deployed here would reduce vodka to only being sold as individual shots. Think about how stupid that is, and then vote against this bill. It's pointless and intended to only harm small businesses and individuals. It provides absolutely no benefit to anyone except large cannabis companies. I am opposed to this legislation and urge the House Committee to kill this Bill. Thank you.
