**Re: Legislative Support for Senate Bill 1585 - Grant Match Relief for Small Cities**

Chair Sosa, Vice Chairs Chaichi & Osborne, and Committee Members:

I am writing in strong support of Senate Bill 1585. Like many small communities, we face significant and unavoidable infrastructure needs while operating with limited revenue options. We depend upon grants and user-based revenues. For a small city with a lean operating budget, setting aside large match amounts often means delaying projects, piecing together funding over many years, or foregoing critical infrastructure work altogether. This is not a matter of poor planning-it is simply a function of scale.

SB 1585 addresses this issue in a practical and proportional way. For our city, the proposed match caps recognize our fiscal reality while ensuring our existing local commitment. Just as important, allowing grant funds to be used for planning, engineering, and project support reflects how infrastructure projects work in small jurisdictions, where those costs can be as challenging as construction itself. SB 1585 does not eliminate local responsibility. It makes state investment workable for us and others who lack the tax base, while still safeguarding public dollars and encouraging timely, well-planned projects.

Thank you for your consideration of Senate Bill 1585, and I urge your support. This change would have a real, immediate impact on small cities across Oregon that are trying to maintain essential infrastructure responsibly and transparently.

I realize that this is a form letter that will be sent many times but it so accurately expresses the position we, in Shady Cove, and others throughout the state find ourselves in, that I cannot improve on the text.

Respectfully,

Lena Richardson

Mayor, City of Shady Cove
