

Submitter: Paul DeBruicker

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1501

I'm a blazer fan and think public funds should not be used to keep the team here or the new or current ownership group happy. If they don't already have the cash the owners can fund their own revenue and profit increasing activities through debt, and pay for it themselves. They can put the team up as collateral for their loan. Just like a person improving their own home can take out a home equity line of credit.
