John Griffiths

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

HB4143

Dear Legislators, my name is John Griffiths and I am a person who experiences an intellectual disability. I must say I am completely for HB4143. Part of why I support this bill is because of the constant cuts to my services that keep me alive. This line in the sand is telling the Federal government they can only push us so far before we push back.

Please support this bill so that my services that keep me alive can keep functioning at the capacity I need them to. There isnt any point of giving money away to the Federal government if we get nothing in return or they continue to take more than we can give.

Taxes are meant to serve the citizens of the United States not just the rich oligarchs or circle inside the Government, never reaching those who need it.

Please support disability services, and say yes to this bill.
