To Whom it May Concern,

I would like to register my opposition to SB1586.

Tech development and tech jobs can be a good thing for Oregon's economy, but should not be made at the expense of Oregon farm land. High quality farm land is not replaceable, and our state is blessed with some of the best soils for agriculture.

Agriculture is one of the top industries in our state, and should be encouraged. This bill, takes away from that.

If tech development is needed, use land that is already in the urban growth boundary.

Thank you.
