

Submitter: Mitchell Fennimore

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

My family and friends own homes that are about to plummet in value. They have incomes they're about to lose to energy and water costs so that remarkably rich people can feel up to date with their latest wage suppressing and environmental destroying toy, A.I.. Just as they refuse to pay for this, and Senator Sollman refuse to account for what is plain and obvious, you can bet that not a single dime or tear will be shed for the public health crisis that will inevitably fall out of this decision. We are only now getting word from across the country of the toxic effects of these data centers. For the safety and stability of families in Hillsboro I strongly oppose this bill.
