

Submitter: M Saechao

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

With the way we value the natural beauty of Oregon this is sickening to see that we would give them any tax breaks to begin with, certainly not more. We are seeing our and our communities prices rise for electricity and water and yet these corporations who don't do anything but take the land and resources post next to nothing. I don't want data centers here but if they are going to be here they need to pay their fair share and the regular people not have to foot the bill with our money and health. Please consider this when looking to approve even more tax breaks. The big businesses are getting richer but that wealth isn't trickling down to the workers or communities they take from.
