Business, and Trade

Measure, Appointment or Topic: SB1548

To whom it may concern,

I'm writing you today in opposition of this proposed rule change.

This rule change would not only put many small businesses at risk of staying on business, but would also cause even more waste to an already very wasteful industry.

This also could impact medical users likey self that eat 50+ mg at a time, and our meds would become much much more expensive. The multi piece edibles are already double the price, and added packaging would only raise that further.

I also don't see this solving the problem of children getting access to edibles, children are capable of getting into simple packaging.

Thank you for taking my concerns into your judgements.
