Committee: Senate Committee On Education
Measure, Appointment or Topic: HB4079

Chair Frederick, Vice-chair Webber, and members of the committee. I am Kai'ea Saragosa, husband of June Saragosa the only one who testified in the public hearing opposing this bill. I, too, deeply oppose this bill. I am not saying this because my wife opposes to it as well, but I have to conclusion to opposing it after reading it. I have read this multiple times to see maybe I might have missed something but no. It is not clear in this bill how students, teachers, and staff will be safe when push comes to shove. How is adopting some policies going to stop students from fear of immigration officers? How is adopting some policies going to keep students safe from everything that is happening in neighboring communities? There is more harm done than actually the intention of it. Or as elected officials you don't take children safety seriously because all you want is to score points for election?
