Measure, Appointment or Topic: HB4088
NO on HB 4088

This bill declares this state's policy to protect engagement in certain activities relating to reproductive health care and gender-affirming treatment. The Act says that it is the policy of this state to make sure "PEOPLE" are allowed to get certain kinds of health care, including care for their bodies and gender identity. The Act also makes changes to laws about helping the federal government and other states in cases arising involving this kind of care, makes some records and information private and says that midwives who give this kind of care will not get in trouble if they follow the rules. "PEOPLE" has no age limit and intends to include children.

It's a federal crime to mutilate the body of a child and it is morally wrong to mutilate a child who is suffering from psychological and mental illnesses such as gender dysphoria, a serious mental health disorder according to the American and International Psychiatric associations' who put together the DSM's 1-5. It is violating EO 14187, January 28, 2025, and risking losing all Federal funding, which you want to tax us, the LEGAL taxpaying citizens, to Kingdom Come to make up for your rebellion.

Abortion and gender reassignment are legally, morally, and ethically wrong. Bloodletting at the anti-God altar of humanism and self-indulgence is murder and shameful. On top of that you want to protect this taxpayer-funded extinguishment of innocent life. We DO NOT support the curse that you are inflicting on the people of our state. If you truly understood what you are doing you wouldn't do it. The deception and moral blindness is staggering. HB 4088 extends immunity to providers and all those who "assist" or "attempt" to provide care, which is in no way exhibiting any kind of care and will open the door to some serious legal challenges when years later these people figure out what they have done, the lawsuits will never end. Protecting such unlawful and immoral acts/behaviors and shielding those who engage in them from being prosecuted is not within the scope and purview of a representative government. Affirming a false "belief" of biological facts is enabling a mental condition that needs serious real help that does not include mutilation.

Oregon already has too many laws allowing these practices, and at the very least we do not need to expand them. You are protecting nothing but EVIL, ungodly provisions that lead to the death of a person's soul. If people want to mutilate their bodies, they can do it on their own dime, and if they want to destroy life, they can also take all responsibility for that. We didn't lie in the bed with them when they fell pregnant.

State or Federal government was never meant to fund such societal practices; you are in your position to give life, not death.

We will never agree to these types of laws. This nation is changing, and Oregon will change with it to reflect what the framers of the Constitution meant for it to be.

Vote NO on HB 4088!!
