

Submitter: Seth Johnson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4138

I support this bill. We need tools to defend against the current overreach and assault on our immigrant communities. This is a common-sense measure that promotes our constitutional rights. If law enforcement is not clearly identified there can be no due process, no appeal in cases of abuse, and we've already seen cases of impersonation cropping up. Violent far-right gangs will seize on this opportunity as they have in the past. The last thing we need is a return of Klan rule, but with the mobs pretending to be immigration instead of wearing white hoods.
