Measure, Appointment or Topic: SB1570

I support this bill. Hospitals cannot be a site of enforcement action; we have a duty to preserve them as safe spaces for healing. If we can't do that we're going to not only have issues now but for many decades to come as people become afraid to visit hospitals even when they have significant healthcare needs. This was already a huge problem in the Tuskegee era and we risk losing a massive amount of re-earned trust unless we take action now.
