

Submitter: Eric Dover
On Behalf Of: OSJA
Committee: House Committee On Health Care
Measure, Appointment or Topic: SB1598

I oppose SB 1598. It gives dictatorial powers to a handful of incompetent, ill-informed people with absolute immunity for all involved no matter the outcome of their decisions and recommendations.

The bureaucratic state of Oregon has already demonstrated their incompetence in their handling of the COVID-19 “pandemic”, the OHA in particular. A plethora of scientific and actuarial documentation has been accumulating since 2020. It shows without question that COVID-19 was simply colds and the flu. It’s interesting, and Kafkaesque, that for the first time in history, there was no flu in 2020, just COVID-19. That’s ridiculous and statistically impossible.

Oregon bureaucrats and the OHA, starting in 2021, pushed an experimental, genetic modified mRNA shot that turned out to be full of DNA, graphene oxide, the oncogenic SV40 (simian virus), hydrogel, self-assembling non-biologic material, and other “crap” that should never be injected into any of God’s creatures. This has resulted in extreme increases in morbidity and mortality worldwide.

Dr. Sidelinger, the medical director at the OHA, recently stated there was no myocarditis after COVID-19 shots. This is utterly false. I sent Dr. Sidelinger and his partner Rachael Banks, MPH a plethora of documents, international in scope, that say otherwise. Therefore, Dr. Sidelinger is either lying or he chooses to remain extremely ignorant regarding the unprecedented morbidity and mortality outcomes related to the COVID-19 shots, and the draconian measures instituted upon the public that have resulted in long lasting, severe, adverse economic effects. Just look at Portland – it is dead.

Why are individuals so utterly incompetent allowed such positions of authority? And now you are looking at giving Oregon bureaucrats, including Dr. Sidelinger and his cohorts, dictatorial powers and absolute immunity? That’s insane. These individuals’ ‘incompetent’ decisions and reluctance to address the studies and actuarial data, begs the question of whether they are ‘paid off’ or just plain evil.

Oregon bureaucrats, and in particular OHA, have been thoroughly informed regarding COVID-19 related information. At <https://drdovervsomb.weebly.com/covid-19-information.html> you can read and analyze the multiple letters sent to them, along with 1600 plus documents they have been sent over a three year period. The available worldwide medical information clearly illustrates the drastic and horrific damage to the bodies of those who allowed themselves to be guinea pigs and accept

the injection of an experimental, contaminated, modified mRNA genetic shot.
