

Submitter: Randall Robinson

On Behalf Of:

Committee: House Committee On Health Care

Measure, Appointment or Topic: SB1598

This is just a really bad idea, putting one person or one small group in charge of medical decisions. This has already been tried, and there is too much pressure on that 1 person or even a small group that can easily be influenced by others, especially where Money is involved.

NO MORE MANDATES or edicts from on-high. Each person must make their own choice. And get their own information.
