Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: HB4134

As a concerned Oregonian, I'm writing to ask you to support HB 4134 – the 1.25% for wildlife bill.

Now that I am nearly 80 years old, I worry about the Oregon legacy we are leaving for the next generation. The outdoors, wildlife and our amazing environment are such a big part of why we chose to raise our family here and yet, I see how threatened it is. HB 4134 will help conserve and restore Oregon's 300+ species and their habitats that are at terrible risk, while supporting Oregonians economy, livelihoods and our quality of life, now and for the future.

As legislators, you have the chance to act and leave a positive, natural legacy for our great state. Please act now and pass this bill that promises to have a long-term, positive impact for the greater good of everyone who calls Oregon home.
