

Submitter: suzia aufderheide
On Behalf Of:
Committee: House Committee On Health Care
Measure, Appointment or Topic: SB1598

dear legislators:

i am opposed to sb1598.

it is wrong to give bureaucrats the power to determine health outcomes of citizens. furthermore, people in oregon, and worldwide, use more than 100 different modalities when it comes to healing. we all matter.

in my case, as a christian scientist these types of overall overriding health mandates are against my religion. against my first amendment right to practice life as the inherent voice within defines.

furthermore, mainstream medicine continues to broadcast wrongful myths regarding human health and so-called "herd immunity".

not only is this constituent, me, opposed to broadstroke "medicine" perpetrated by government but also the fear generated by false decrees and deliberate mongering. both are wrong and should be addressed by legislators who desire to behave in an ethical manner, in particular, regarding the public that rely on your making a reasonable and intelligent decision.

please do your homework (not provided by government or industry who stand to profit) but dig deep. perhaps you would like to begin with a study of quantum physics. again, please vote no on sb 1598.

thank you

suzia aufderheide

ashland, oregon

constituent nearly 50 years

p.s. it is wrong to put bureaucrats in charge of health.
