

Submitter: Margaret Frontella

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: HB4088

I support HB-4088. I'm a concerned citizen and have strong ethical and moral empathy for how people are treated in this society.

What we do with our healthcare needs to remain private and between our providers and ourselves. All healthcare records should be protected. We should not fear government interference, stigma or surveillance.

Please use your representation to support HB-4088. Thank you
