

Submitter: Michael Oliver

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1501

I somewhat support keeping the Blazers in Portland. I do not support \$600 million in public money with no private contribution and no revenue returned to the General Fund. Every other city got a better deal.

I've previously written in support of amendments to SB1501 and continue to believe these are the minimum that should guide an expenditure of bond/general funds or any tax credit expenditure.

Please vote to amend SB 1501 before it passes.
