Measure, Appointment or Topic: SB1530

Public officials should be held accountable and stand up for what is in the best interest of their constituents. Public officials should have a backbone. If these two things are happening the risk of threats is low. I believe this SB 1530 undermines the accountability structure. As a school board member, I want to hear from my constituents, either good or bad. This SB 1530 is one more rule we don't need and one more way for public officials to hide from accountability.
