

Submitter: Margaret Frontella

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: HB4079

I am in strong support of HB 4079. This requires schools to develop and initiate protocols when federal immigration authorities are present. There is no justification for not having districtwide processes for when and if DHS needs to come onto an Oregon campus. Unfortunately, DHS has gone back and forth on ICE school raids. The Federal Government, under its current administration, cannot guarantee the movement of ICE. There have been ICE agents in many documented instances waiting for children to get out of school and advance on them and/or their parents. These were done off campus; however, this has a tremendous negative effect on the school, the community, the students and their families. Please use your legislative vote in support of HB 4079-A, thank you.
