

Submitter: Margaret Frontella

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: SB1533

I am in support of SB 1533-A. As a child, I went through trauma at a young age. It lives with you forever. I always hope that we continue moving forward as a society, making everyone's lives a little better with each change. The modification for healthy sibling contact, stated in SB 1533, is an important step for enhancing the outcome of a child's healing, along with the other rights listed in this bill. Please use your legislative vote to pass SB1533-A, thank you.
