

Submitter: Kimberly Boyer

On Behalf Of:

Committee: House Committee On Health Care

Measure, Appointment or Topic: SB1598

As a pediatrician and mother I believe that this bill will allow Oregon health providers to provide flexibility to adapt and adjust nimbly to changing federal guidance changes on preventative care measures. Vaccines are the safest and most effective public health service that I talk about and recommend daily. This law support the ability for providers and patient / families to discuss together and continue to have access to preventative measure are best for their child.
