To the Senate Committee on Finance and Revenue,
Hello. I live in Sweet Home, Oregon, a small, lower income logging town. I fully support this bill and feel that many others here in Sweet Home would, also. This town has increasingly relied on tourism in addition to logging. This tourism, along with virtually all tourism in Oregon, is dependent on this state's beautiful natural resources. What else is there!? We need to intentionally protect what we are so, so fortunate to have in Oregon. This small increase in tax would do so much in so many areas across the state. We need to be proactive and take care of the outdoors that we all love. This bill would go a long ways in doing that. I would have no problem paying this slight increase at a hotel and I don't think others, residents or not, would either. Thank you for your time!
