I am opposed to this bill with the current wording which allows vaccines of all kind to be mandated by a single government entity. If lawmakers TRULY intend to protect informed consent and bodily autonomy, they can prove it — by changing “may not” to “shall not.” Our son was permanently injured by a round of vaccines when he was 18 months old. Because vaccines are not inherently safe for all people all the time they should never be mandated! How many times do the people of Oregon need to tell this to our legislators.
