Measure, Appointment or Topic: HB4134

HB 4134 is historic legislation that would protect our wildlife, safeguard communities, and strengthen our tourism economy that depends on a healthy environment. Outdoor recreation is a \$16 billion industry in Oregon. We can keep that industry growing and thriving by investing in the wildlife and natural spaces that attract visitors, all while still keeping Oregon's statewide lodging tax one of the lowest in the nation.

The health of people and our environment is inextricably linked. Keeping nature healthy keeps people healthy. Projects funded by this legislation will help protect and clean drinking water, support wild pollinators that are essential to our food and natural systems, and maintain species like bats that help control insect populations. These investments aren't just an investment in our environment; they're an investment in community health.
