On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I oppose this bill.

I believe this bill started in controversy in committee with a member of the house forcing another to change their vote and redoing the vote.

To the bill.

Measure 114 is still in court do decide if it is even constitutional. We should not be adding to something that is still being decided on.

The permit fee puts an unfair fee on a right and affects low income citizens.

Banning magazines over 10 rounds because they are high capacity is incorrect. The standard capacity magazine for a handgun is 17 to 19 rounds and 30 rounds for a rifle. I magazine capacity of 30 rounds is standard.

Sending Oregonians fingerprints and other information to the FBI is a slippery slope. How can you be sure they won't keep our information? How can you be sure the FBI won't share our information with ICE?

It is not fair to Oregonians to limit court challenges to one county court. This makes nearly impossible for citizens outside of the valley to have their voice heard.

This bill is being marketed as a suicide preventing bill, but the truth is won't get troubled people the help they need. This bill is not about stopping suicide.

I strongly urge a no vote as this is a bad bill in many ways.

Thank you

Kevin
