Measure, Appointment or Topic: HB4145

Dear committee,

M114 and its evil twin HB 4145 (as you already are well aware) is unconstitutional on its face and nothing but the heavy hand of the Democrat majority punishing law abiding gun owners, FFL's, small businesses, and people with limited income. It's un-American. It's just plain wrong. No American should need a permission slip with a fee and waiting period attached to exercise a right.

Please stop this nonsense and let this legislation die now and forever with your vote against it. The Supreme Court of Oregon will make their own ruling on M114 soon enough.
