

Submitter: Martin MacKenzie
On Behalf Of: Myself
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

To Whom it May Concern,

HB 4145 is a more bastardized version of Measure 114, but even worse. It's designed to disarm American citizens who have done no wrong and are guaranteed the right to bear arms under both the Federal and Oregon State constitutions. This bill is one gigantic infringement designed to remove our rights and centralize control in government hands like has always been done by totalitarian, corrupt, or simply incompetent regimes. Do not allow this to pass.

"A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed."

"The people shall have the right to bear arms for the defense [sic] of themselves, and the State, but the Military shall be kept in strict subordination to the civil power."
