

Submitter: Alex Dunn

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Vote no. This law infringes upon our second amendment rights. This proposed law harms our vulnerable communities who both cannot afford the significant added cost burden and often live in unsafe areas where the ability to protect oneself is needed most. Given Oregon's increasing leniency toward criminals and the inability to provide public defenders has ensured many dangerous criminals who ought to be in prison are instead in our communities.
