

Submitter: Thomas Paugh  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: HB4145

To begin with,

Measure 114 and SB4145 are both unconstitutional by the Oregon and federal constitution's.

Purchasing a permit for a God given right is totally unnecessary and unconstitutional. The second amendment both in the state of Oregon and the federal constitution both give all law abiding citizens the right to bear arms in the protection of themselves, property, family, and country. However, both the state of Oregon second amendment and federal constitutions main purpose is to provide the American people to defeat tyrannical governments, both on a state and federal level. The second amendment checks the balance of power between government and the people.

All this anti gun propaganda and tyrannical rhetoric is just to keep power of a few elected politicians over the masses of the free people.

Thank you for your time,

Thomas J Paugh
