

Submitter: Robin Williams

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: HB4134

I strongly support this bill. This bill levies is a small tax with a big bang for the buck. It will provide a dependable source of funding for maintaining and repairing the biodiversity of our state's natural resources, whether native plants and animals, healthy forests, or sustainable environments for our ranchers. All are in need of support and protection, especially given our changing climate, which will continue to place stress on these natural resources going forward. Please pass this bill!
