

Submitter: Jim Hunt

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Dear Senator Starr,

As a retired public servant who has been active in municipal management for nearly twenty years and worked in many states including D.C.

I should not be shocked retiring back to my home state from Alaska that the endless gun control efforts continue.

I ask you and your Minority Caucus shut down HB4145. It is another crushing blow to law abiding gun owners who, like me, always follow all state and federal weapons laws.

This proposition is punitive to low income Oregonians and reminds me of the late 1990's when thirty (30) California cities voted for the Saturday Night Special Laws that disallowed low income people from owning a self defense weapon unless it reached a cost threshold.

Please do all you can to shut this bill down.
