Measure, Appointment or Topic: SB1501

I absolutely love the Portland Trailblazers. I am 35 years old and I have gone to the rose garden and now mods center since I was a little girl! I grew up watching the Trail Blazers play, and some of my best memories are going to watch them in person. Now that I'm a mom, I have passed down those fun traditions with my three boys. We love watching them on TV throughout the week and also attending the games! Our city needs the blazers. It's the one sport our community loves and connects with. The team brings energy, excitement, connection, and love throughout Oregon. I would be heartbroken if we lost this in our city. It's the one thing that brings Hope, makes people happy and something to look forward to each season. It would be very sad to see them leave and I think a lot of people would be upset. I really hope that we can continue to have such an amazing sports team in the city.
