

Submitter: George Botkin

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I strongly Oppose this bill for but not limited to the following reasons.

It should never have gotten to this point. In committee it was going to fail until Kropf took one of his colleges into the hall and brow beat her into voting his way. then had a revote that it passed. This is fraud and not how our government should work.

FBI getting our fingerprints this is not acceptable.

Unreasonable costs limit who can get a firearm. adding on the cost of live fire class puts it over the top for many.

Whether they want to admit it or not this is an infringement on our 2nd amendment right.

A huge burden on our state that is already broke.

Definite misinformation on the part of the democrats.
