I strongly support all initiatives that will help us to renovate the oldest venue in the U.S. The cost of the renovation will be paid back many times over through all the events, job creation and taxes among other things. Please don't be short sighted by the initial cost. Portland, as the 23rd largest media market deserves a 1st class venue. Additionally, losing the Blazers would be an unforgivable loss that the city could not come back from. Please, let's figure out how to get this done. Thank you....
