

Submitter: Eric Brown

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I strongly oppose HB4145. Having had a career in law enforcement I know who commits gun crimes and so do you and it's not the honest everyday American. Stop this nonsense and direct your energy to the real problem, which is mental health, broken families and drugs. Sadly, this message is falling on deaf ears. You should be ashamed of yourself.
