Measure, Appointment or Topic: HB4145

I stongly oppose HB 4145. It places some citizens above others with special rights for them. It also only adds more stipulations, wait time, cost, redundant background checks, creates a registry & more to the already unconstitutional Measure 114. Also, M114 has been waisting Oregonian's tax payer dollars in court since 2022. Kropf bullied Tran into changing her vote mid vote or HB 4145 would be done already. End this nonsense.
