This bill is wrong and unconstitutional. Period. Obviously the dictatorship in Salem doesn't care and will pass this against the will of the people just like the "transportation package" bill. Let the courts finish deciding 114 before deliberately violating our rights. Every part of this is being struck down in other states by the courts and still the dictators will pass this at taxpayer expense. Obviously with all of the opposing testimony, this bill is not the will of the people, just the demands of anti-gun zealots in Salem. Nothing any of us say will dissuade the dictatorship in Salem so I'll not address this anymore. Please, I repeat, please do not pass this bill against the wishes of the people. We have spoken loud and clear, but you don't care.
