

Submitter: Marisue Crystal

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: HB4134

Oregon is a beautiful state with many varied natural features and environments/habitats. We need to care for, support and conserve our "natural" areas so they will be able to support the diversity of life those environments are capable of supporting and that, ultimately, support our lives. But Oregon's financial pockets do not seem deep enough to accomplish all this and now, especially in these uncertain times where federal funding is decreasing while federal incursions on our land are on the increase, any financial assistance we can round up is sorely needed. I do not believe this small tax increase will discourage travelers and vacationers from visiting our state.

Please vote in support of this measure. Thank you.
