I strongly OPPOSE this bill, it is racist, it will increase fees on everyone, adversely impacting lower income (minority) and rural peoples won't be able purchase firearms for personal defense. Who is legally able to make decisions on magazine capacities anyways, why stop at 10 and not 3? When having to defend yourself in an altercation who's to say that 10, or 3 or 30 round's are enough? Its not legislators. Magazines are arms, there are a number of legal cases stating so, that's infringement, limiting capacities in most cases will render the firearm useless and thus infringing on my right to bear arms. Confiscating magazines, if this goes thru, making my firearm useless is unconstitutional. Your time would be better spent dealing with attracting industry to the state and not attacking Oregonians civil rights. There is so much wrong with this bill.
