HB4145

The supreme court of the United States has already ruled that permits are unconstitutional. Not only that but the second amendment exists because all citizens of this great nation have the god given (whatever God said people believe in) right to self protection, self determination. all males between age 17 and 45 must be prepared to fight in the defense of our country. This bill will severely impact the sovereignty of this country by creating barriers for fighting aged males from acquiring the means to defend this state and nation.
