I strongly oppose this bill and all revisions.

The purpose of the 2nd amendment to the US Constitution is to give citizens the means to protect themselves from a tyrannical government. Now we have a tyrannical state government relentlessly trying every trick they can to remove or at least curtail our right to own and bear firearms.

Meanwhile the Portland City Council wants to open carry because they were assaulted by some of their own radical fringe.

And the state thinks this is a great place to welcome illegal aliens regardless of criminal record and warrants.

And then the bill proclaims that lawsuits against this bill can only be brought in Marion County, to improve your chances of judges under your thumbs ruling in your favor.

Make all this all make sense.
