Measure, Appointment or Topic: HB4145

As a 3rd generation Oregonian, you need to understand that everyone wants gun safety. The gun owners want that more than non gun owners I promise. What you seem to forget is that all you can do by changing a law is change the rules for legal gun owners who abide by and follow the laws. A law breaker is not going to follow your old or new laws whatsoever and can easily produce any gun in any metal shop. We have the right to have guns and I don't feel you have the authority to restrict us from our constitutional rights. You see we are doing the right things and we are following the laws. Just because you create more laws for the good people to follow doesn't mean at all it will help crime. It won't.

We need guns to keep our cities and public safe. The police can't do the job properly. Under circumstances of war it's also necessary to keep a gun for protection and invasion. Taking out drones requires rapid fire and you are not thinking clearly. Please stop gun restrictions for legal owners who will possibly save your butt one day. Crime continues with disregard to all of your laws. Restrictions are not the answer. Mental testing might be a start.
