I strongly oppose this bill and all revisions.

The 2nd amendment is in place to protect citizens from acts of tyranny. Giving our local government right to decide if the constitution applies to US citizens is not an option.

As a law abiding citizen that has supported our country for over 40 years I believe this bill is the exact reason the 2nd amendment was added to our constitution. I am disgraced that this has gone as far as it has.

In a world of turmoil and massive social division this bill needs to be blocked now more than ever.
